LIGHTING
DEPARTMENT

LIGHTING

Our lighting Design department is a specialist team of lighting designers and technicians who create custom lighting solutions for a variety of applications. These teams typically provide lighting solutions for residential and commercial spaces. They work with architects, interior designers, and engineers to develop lighting solutions that meet their client's needs. These companies offer a variety of services, including lighting design, lighting installation, lighting control, energy-saving solutions, and more. They also offer maintenance and repair services to ensure that the lighting solutions they provide are always functioning optimally.

OUR GOAL

The projects The Switch Company has accomplished around the UAE in over 10 years of history represent the company's identity, values, and constant commitment to using light as a tool for social innovation. All these places come alive through light, extending domestic boundaries in order to construct living spaces of the future.

WHY CHOOSE US

Professional Solutions

Lighting Design in 3D visuals, Lux studies and Layouts.

Professional Team

A Professional Lighting Designers and engineers are willing to provide a professional lighting solutions.
